

Tushar

B-10 Sanjay Enclave, Uttam Nagar, New Delhi-110059 | +91 7042827024 | tushar921353@gmail.com

PROFESSIONAL SUMMARY

Computer Science student specializing in Cybersecurity with hands-on internship experience in cybersecurity operations and practical project work in Python-based security tools. Proficient in Python and C, with applied experience building an IP threat-intelligence tool and a billing application. Active participant in coding competitions, with a strong foundation in programming and security fundamentals.

EDUCATION

B.Tech, Computer Science Engineering – Cybersecurity Specialization

Hindu College of Engineering, Sonipat | July 2024 – Present

Higher Secondary (12th), Non-Medical Stream

Gagan Bharti Public School, Om Vihar | April 2023 – March 2024

EXPERIENCE

Cyber Security Intern – UPLYX Solutions (Remote)

March 2026 – May 2026

- Completed a hands-on Cyber Security internship, gaining practical exposure to cybersecurity tools, concepts, and workflows.

PROJECTS

Malicious IP Intelligence System

- Built a Python-based tool that queries the AbuseIPDB API to check and assess IP addresses for malicious activity.

Billing Application

- Developed a billing application using Python for core logic and HTML for generating bills.

SKILLS

Programming Languages: Python, C

ADDITIONAL INFORMATION

- Awards: Participant in multiple coding competitions
- Languages: English, Hindi
